Born and raised in the lanes of Bombay 3, this is the story of Jagan Kumar who dreams of being a television journalist and changing the world. But once he achieves this, he realises that television journalism has lost its path, now afflicted with sensationalism, corruption and bias. As a crime reporter, he comes across various unscrupulous

means that law enforcement agencies adopt to combat organised crime syndicates. He is shocked to witness interdepartmental rivalry that often jeopardises public security. Disenchanted, in conflict with his conscience and confused about his calling, he is about to quit when something happens that changes the course of his life. *Bombay 3* begins from the bylanes of old Bombay of the seventies and then takes you to Mosul in ISIS's Iraq of 2014 and finally to the streets of Bangkok where the underworld of Mumbai has spread its tentacles. A wonderful first novel which dramatically combines the suspense of a gripping literary thriller with a meditation on the nature of scientific chaos Roz Benegal, a feisty young BBC researcher, goes to India to pick up the threads of her life there (she spent part of her childhood growing up in Kerala). She goes to Bombay to visit her sister Miranda, who is married to a prominent Bollywood film director, Prosper. Roz arrives to news headlines announcing the deaths of 8 eunuchs in four months and to rumours that her sister's husband may have murdered his first wife Maya, a film star past her prime. Not satisfied to leave the investigations of these allegations to the Indian police, Roz Benegal begins a dangerous search for the truth. Interwoven with this utterly gripping detective story is a remarkable layering of knowledge gleaned from old books on storms, the monsoon, poisons and magical transformations, the narrator's fascination with chaos theory and her passionate interest in fate.

## **The Indian Mail**

The definitive biography of Dadabhai Naoroji, the nineteenth-century activist who founded the Indian National Congress, was the first British MP of Indian origin, and inspired Gandhi and Nehru. Mahatma Gandhi called Dadabhai Naoroji the "father of the nation," a title that today is reserved for Gandhi himself. Dinyar Patel examines the extraordinary life of this foundational figure in India's modern political history, a devastating critic of British colonialism who served in Parliament as the first-ever Indian MP, forged ties with anti-imperialists around the world, and established self-rule or swaraj as India's objective. Naoroji's political career evolved in three distinct phases. He began as the activist who formulated the "drain of wealth" theory, which held the British Raj responsible for India's crippling poverty and devastating famines. His ideas upended conventional wisdom holding that colonialism was beneficial for Indian subjects and put a generation of imperial officials on the defensive. Next, he attempted to influence the British Parliament to institute political reforms. He immersed himself in British politics, forging links with socialists, Irish home rulers, suffragists, and critics of empire. With these allies, Naoroji clinched his landmark election to the House of Commons in 1892, an event noticed by colonial subjects around the world. Finally, in his twilight years he grew disillusioned with parliamentary politics and became more radical. He strengthened his ties with British and European socialists, reached out to American anti-imperialists and Progressives, and fully enunciated his demand for swaraj. Only self-rule, he declared, could remedy the economic ills brought about by British control in India. Naoroji is the first comprehensive study of the most significant Indian nationalist leader before Gandhi.

Gayatri Chakravorty Spivak is one of the most pre-eminent postcolonial theorists writing today and a scholar of genuinely global reputation. This collection, first published in 1993, presents some of Spivak's most engaging essays on works of literature such as Salman Rushdie's controversial *Satanic Verses*, and twentieth century thinkers such as Jacques Derrida and Karl Marx. Spivak relentlessly questions and deconstructs power structures where ever they operate. In doing so, she provides a voice for those who can not speak, proving that the true work of resistance takes place in the margins, *Outside in the Teaching Machine*.

## **The Third Sex and Human Rights**

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial

rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction, Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Seeing the radiant face of Ma Anandamayi and hearing her laughter you guess that she is an incarnation of Joy. Touched by the caress of Her glance you know that her heart is overflowing with love for all beings. Listening to Her teaching so simple and clear you understand that She is in possession of all Wisdom. But one cannot say whether it is Joy, Love or Wisdom that is the source of all this for with Her all there are inextricably and indissolubly mingled one could not exist without the others. The joy which Ma anandmayi lives is not that which we know in worldly life, where pleasure and pain, hope, regret and disillusionment, attraction and repulsion follow on each other's heels, born one of another. Nor is it an egocentric calm of stoic rigidity that erects around itself a rampart of indifference. Hers is an overflowing, irrepressible joy that expresses itself in gaiety, that knows no obstacles, because it is deeply rooted in the Absolute, beyond the dualities of good and evil, of 'I' and 'not-I', of pleasant and unpleasant, because its unshakable base is Love and Wisdom.

Born just one year before the United Nations itself, Ban Ki-moon came of age with the world body. His earliest memories are haunted by the sound of bombs dropping on his Korean village and the sight of fires consuming what remained. The six-year-old boy fled with his family, trudging for miles in mud-soaked shoes, suffering from incessant hunger, and wondering how they would survive—until the United Nations rescued them. Young Ban Ki-moon grew up determined to repay this lifesaving generosity. Resolved is Ban Ki-moon's personal account of his decade at the helm of the organization during a period of historic turmoil and promise. Meeting challenges and resistance with a belief in the UN's mission of peace, development, and human rights, he steered the United Nations through a volatile period that included the Arab Spring, nuclear pursuits in Iran and North Korea, the Ebola epidemic, and brutal new conflicts in Central Africa. As secretary-general, Ban also forged global agreements to fight extreme poverty and address the climate crisis. Ban performed what has been called "the most impossible job on this earth" with a genuine belief in collective action and global transformation. Freed from the diplomatic constraints of a lifetime of public service, he offers a candid assessment of the people and events that shape our era and a bracing analysis of what lies ahead.
