

FREE ACCESS CIRCULAR BREATHING THE CULTURAL POLITICS OF JAZZ IN BRITAIN

Circular Breathing

In *Circular Breathing*, George McKay, a leading chronicler of British countercultures, uncovers the often surprising ways that jazz has accompanied social change during a period of rapid transformation in Great Britain. Examining jazz from the founding of George Webb's Dixielanders in 1943 through the burgeoning British bebop scene of the early 1950s, the Beaulieu Jazz Festivals of 1956–61, and the improvisational music making of the 1960s and 1970s, McKay reveals the connections of the music, its players, and its subcultures to black and antiracist activism, the Campaign for Nuclear Disarmament, feminism, and the New Left. In the process, he provides the first detailed cultural history of jazz in Britain. McKay explores the music in relation to issues of whiteness, blackness, and masculinity—all against a backdrop of shifting imperial identities, postcolonialism, and the Cold War. He considers objections to the music's spread by the "anti-jazzers" alongside the ambivalence felt by many leftist musicians about playing an "all-American" musical form. At the same time, McKay highlights the extraordinary cultural mixing that has defined British jazz since the 1950s, as musicians from Britain's former colonies—particularly from the Caribbean and South Africa—have transformed the genre. *Circular Breathing* is enriched by McKay's original interviews with activists, musicians, and fans and by fascinating images, including works by the renowned English jazz photographer Val Wilmer. It is an invaluable look at not only the history of jazz but also the Left and race relations in Great Britain.

The Pop Festival

'I'm going to camp out on the land ... try and get my soul free'. So sang Joni Mitchell in 1970 on 'Woodstock'. But Woodstock is only the tip of the iceberg. Popular music festivals are one of the strikingly successful and enduring features of seasonal popular cultural consumption for young people and older generations of enthusiasts. From pop and rock to folk, jazz and techno, under stars and canvas, dancing in the streets and in the mud, the pleasures and politics of the carnival since the 1950s are discussed in this innovative and richly-illustrated collection. *The Pop Festival* brings scholarship in cultural studies, media studies, musicology, sociology, and history together in one volume to explore the music festival as a key event in the cultural landscape - and one of major interest to young people as festival-goers themselves and as students.

The Cultural Politics of Jazz Collectives

The Cultural Politics of Jazz Collectives: This Is Our Music documents the emergence of collective movements in jazz and improvised music. Jazz history is most often portrayed as a site for individual expression and revolves around the celebration of iconic figures, while the networks and collaborations that enable the music to maintain and sustain its cultural status are surprisingly under-investigated. This collection explores the history of musician-led collectives and the ways in which they offer a powerful counter-model for rethinking jazz practices in the post-war period. It includes studies of groups including the New York Musicians Organization, Sweden's Ett minne för livet, Wonderbrass from South Wales, the contemporary Dutch jazz-hip hop scene, and Austria's JazzWerkstatt. With an international list of contributors and examples from Europe and the United States, these twelve essays and case studies examine issues of shared aesthetic vision, socioeconomic and political factors, local education, and cultural values among improvising musicians.

Black British Jazz

Black British musicians have been making jazz since around 1920 when the genre first arrived in Britain. This groundbreaking book reveals their hidden history and major contribution to the development of jazz in the UK. More than this, though, the chapters show the importance of black British jazz in terms of musical hybridity and the cultural significance of race. Decades before Steel Pulse, Soul II Soul, or Dizzee Rascal pushed their way into the mainstream, black British musicians were playing jazz in venues up and down the country from dance halls to tiny clubs. In an important sense, then, black British jazz demonstrates the crucial importance of musical migration in the musical history of the nation, and the links between popular and avant-garde forms. But the volume also provides a case study in how music of the African diaspora reverberates around the world, beyond the shores of the USA - the engine-house of global black music. As such it will engage scholars of music and cultural studies not only in Britain, but across the world.

Senseless Acts of Beauty

Welcome to the social and environmental devastation that is Britain in 1996. Welcome to interchangeable political parties and their chattering media jesters pulling together to make Johnny Rotten's dream come true: no future. But despite their best efforts, fear, cynicism and the National Lottery aren't the whole story. Protest hasn't disappeared during the last twenty years, and nor have solidarity and imagination. They have simply taken new forms; they have moved out and moved on. More and more people, young people especially, are making a virtue of necessity and living outside Britain's rotting institutional fabric. Travellers, tribes, ravers or squatters, direct-action protesters of every kind, DIYers. This book is the first attempt to write their history, to explore and celebrate their endlessly creative senselessness. George McKay looks back at the hippies of the sixties and punks of the seventies, and shows how their legacies have been transformed into what he calls cultures of resistance. His journey through the undergrounds of the last two decades takes us from the Windsor Free Festival of 1972 to the Castlemorton Free Rave Megaparty exactly twenty years later, from the anarchopunk band Crass via Teepee Valley and Glastonbury to today's ever-intensifying anti-road protests, and to the widespread opposition to the Criminal Justice Act. Drawing on fanzines and free papers, record lyrics, interviews and diaries, *Senseless Acts of Beauty* gives a vivid, insider account of countercultures, networks and movements that until now have remained largely unrecorded. At the same time, George McKay analyses their effects, and gives his own answers to the questions they pose: what are their politics, their aspirations, their consequences? One thing is certain, he argues: if there is resistance anywhere in Britain today, then it is here, in the beat-up buses, beleaguered squats and tree-top barricades, that we should start to look for it.

British Marxism and Cultural Studies

A comprehensive exploration of the profound influence of Marxist ideas on the development of Cultural Studies in Britain, this volume covers a century of Marxist writing, balancing synoptic accounts of the various schools of Marxist thought with detailed analyses of the most important writers. Arguing that a recognisably Marxist tradition of cultural analysis began in the last two decades of the nineteenth century and continues unbroken to the present day, *British Marxism and Cultural Studies* traces the links between contemporary developments in the field and the extended tradition of which they form a part. With discussion of figures such as Jack Lindsay, C.L.R. James, Julian Stallabrass and Mike Wayne, as well as the cultural thinking of the New Left, Gramscian, Althusserian and Political Economy schools, this book shows that the history of British cultural Marxism is broader and richer than many people realise. As such, it will be of interest to scholars and students of sociology, cultural studies, intellectual history and the history of the Left.

Annual Review of Jazz Studies 14

The Annual Review of Jazz Studies (ARJS) is a journal providing a forum for the ever expanding range and

depth of jazz scholarship, from technical analyses to oral history to cultural interpretation. This 14th issue contains four articles that contravene accepted precepts of jazz orthodoxy: John Howland traces the connection between Duke Ellington's extended works and the 'symphonic jazz' model of the 1920s; Horace J. Maxile, Jr. takes an unfashionably broad perspective of Charles Mingus's 'Ecclusiastics'; Brian Priestley challenges the canonical depiction of Charlie Parker by exploring his ties to the popular music of his time; and John Wriggle presents an extensive examination of the life and work of arranger Chappie Willet.

DiY Culture

Editor George McKay claims that popular protest today is characterized by a culture of immediacy and direct action. Gathered here is a collection of in-depth and reflective pieces by activists and other key figures in Britain's DiY culture. From the environmentalist to the video activist, the raver to the road protester, the neo-pagan to the anarcho-capitalist, Britain's youth forge a new kind of politics. 16 photos.

Inside British Jazz

Inside British Jazz explores specific historical moments in British jazz history and places special emphasis upon issues of race, nation and class. Topics covered include the reception of jazz in Britain in the 1910s and 1920s, the British New Orleans jazz revival of the 1950s, the free jazz innovations of the Joe Harriott Quintet in the early 1960s, and the formation of the all-black jazz band, the Jazz Warriors, in 1985. Using both historical and ethnographical approaches, Hilary Moore examines the ways in which jazz, an African-American music form, has been absorbed and translated within Britain's social, political and musical landscapes. Moore considers particularly the ways in which music has created a space of expression for British musicians, allowing them to re-imagine their place within Britain's social fabric, to participate in transcontinental communities, and to negotiate a position of belonging within jazz narratives of race, nation and class. The book also champions the importance of studying jazz beyond the borders of the United States and contributes to a growing body of literature that will enrich mainstream jazz scholarship.

Americanizing Britain

How did Great Britain, which entered the twentieth century as a dominant empire, reinvent itself in reaction to its fears and fantasies about the United States? Investigating the anxieties caused by the invasion of American culture—from jazz to Ford motorcars to Hollywood films—during the first half of the twentieth century, Genevieve Abravanel theorizes the rise of the American Entertainment Empire as a new style of imperialism that threatened Britain's own. In the early twentieth century, the United States excited a range of utopian and dystopian energies in Britain. Authors who might ordinarily seem to have little in common—H.G. Wells, Aldous Huxley, and Virginia Woolf—began to imagine Britain's future through America. Abravanel explores how these novelists fashioned transatlantic fictions as a response to the encroaching presence of Uncle Sam. She then turns her attention to the arrival of jazz after World War I, showing how a range of writers, from Elizabeth Bowen to W.H. Auden, deployed the new music as a metaphor for the modernization of England. The global phenomenon of Hollywood film proved even more menacing than the jazz craze, prompting nostalgia for English folk culture and a lament for Britain's literary heritage. Abravanel then refracts British debates about America through the writing of two key cultural critics: F.R. Leavis and T.S. Eliot. In so doing, she demonstrates the interdependencies of some of the most cherished categories of literary study—language, nation, and artistic value—by situating the high-low debates within a transatlantic framework.

The Bebop Scene in London's Soho, 1945-1950

This is the first book to tell the story of the bebop subculture in London's Soho, a subculture that emerged in 1945 and reached its pinnacle in 1950. In an exploration via the intersections of race, class and gender, it shows how bebop identities were constructed and articulated. Combining a wide range of archival research

and theory, the book evocatively demonstrates how the scene evolved in Soho's clubs, the fashion that formed around the music, drug usage amongst a contingent of the group, and the moral panic which led to the police raids on the clubs between 1947 and 1950. Thereafter it maps the changes in popular culture in Soho during the 1950s, and argues that the bebop story is an important precedent to the institutional harassment of black-related spaces and culture that continued in the twentieth and twenty-first centuries. This book therefore rewrites the first chapter of the 'classic' subcultural canon, and resets the subcultural clock; requiring us to rethink the periodization and social make-up of British post-war youth subcultures.

Music and Politics

It is common to hear talk of how music can inspire crowds, move individuals and mobilise movements. We know too of how governments can live in fear of its effects, censor its sounds and imprison its creators. At the same time, there are other governments that use music for propaganda or for torture. All of these examples speak to the idea of music's political importance. But while we may share these assumptions about music's power, we rarely stop to analyse what it is about organised sound - about notes and rhythms - that has the effects attributed to it. This is the first book to examine systematically music's political power. It shows how music has been at the heart of accounts of political order, at how musicians from Bono to Lily Allen have claimed to speak for peoples and political causes. It looks too at the emergence of music as an object of public policy, whether in the classroom or in the copyright courts, whether as focus of national pride or employment opportunities. The book brings together a vast array of ideas about music's political significance (from Aristotle to Rousseau, from Adorno to Deleuze) and new empirical data to tell a story of the extraordinary potency of music across time and space. At the heart of the book lies the argument that music and politics are inseparably linked, and that each animates the other.

Special Relations

A study of Anglo-American cultural and countercultural exchange from the mid Fifties to the mid-Seventies, *Special Relations* explores aspects of London modernism, the anti-war movement, student rebellion, black power, the second-wave feminist and gay liberation movements, and transatlantic nostalgia.

The British National Daily Press and Popular Music, c.1956-1975

The *British National Daily Press and Popular Music c.1956-1975* constitutes a reappraisal of the reactions of the national daily press to forms of music popular with young people in Britain from the mid-1950s to the 1970s (including rock 'n' roll, skiffle, 'beat group' and rock music). Conventional histories of popular music in Britain frequently accuse the newspapers of generating 'moral panic' with regard to these musical genres and of helping to shape negative attitudes to the music within the wider society. This book questions such charges and considers whether alternative perspectives on press attitudes towards popular music may be discerned. In doing so, it also challenges the tendency to perceive evidence from newspapers straightforwardly as a mere illustration of wider social trends and considers the manner in which the post-war newspaper industry, as a sociocultural entity in its own right, responded to developments in youth culture as it faced distinctive challenges and pressures amid changing times.

Victory through Harmony

To serve the British nation in World War II, the BBC charged itself with mobilizing popular music in support of Britain's war effort. Radio music, British broadcasters and administrators argued, could maintain civilian and military morale, increase industrial production, and even promote a sense of Anglo-American cooperation. Because of their widespread popularity, dance music and popular song were seen as ideal for these tasks; along with jazz, with its American associations and small but youthful audience, these genres suddenly gained new legitimacy at the traditionally more conservative BBC. In *Victory through Harmony*, author Christina Baade both tells the fascinating story of the BBC's musical participation in wartime events

and explores how popular music and jazz broadcasting helped redefine notions of war, gender, race, class, and nationality in wartime Britain. Baade looks in particular at the BBC's pioneering Listener Research Department, which tracked the tastes of select demographic groups including servicemen stationed overseas and young female factory workers in order to further the goal of entertaining, cheering, and even calming the public during wartime. The book also tells how the wartime BBC programmed popular music to an unprecedented degree with the goal of building national unity and morale, promoting new roles for women, virile representations of masculinity, Anglo-American friendship, and pride in a common British culture. In the process, though, the BBC came into uneasy contact with threats of Americanization, sentimentality, and the creativity of non-white "others," which prompted it to regulate and even censor popular music and performers. Rather than provide the soundtrack for a unified "People's War," Baade argues, the BBC's broadcasting efforts exposed the divergent ideologies, tastes, and perspectives of the nation. This illuminating book will interest all readers in popular music, jazz, and radio, as well as British cultural history and gender studies.

The Cultural Politics of Jazz Collectives

The Cultural Politics of Jazz Collectives: This Is Our Music documents the emergence of collective movements in jazz and improvised music. Jazz history is most often portrayed as a site for individual expression and revolves around the celebration of iconic figures, while the networks and collaborations that enable the music to maintain and sustain its cultural status are surprisingly under-investigated. This collection explores the history of musician-led collectives and the ways in which they offer a powerful counter-model for rethinking jazz practices in the post-war period. It includes studies of groups including the New York Musicians Organization, Sweden's Ett minne för livet, Wonderbrass from South Wales, the contemporary Dutch jazz-hip hop scene, and Austria's JazzWerkstatt. With an international list of contributors and examples from Europe and the United States, these twelve essays and case studies examine issues of shared aesthetic vision, socioeconomic and political factors, local education, and cultural values among improvising musicians.

Latin Jazz

"Latin Jazz: the Other Jazz is an issue oriented historical and ethnographic study of Latin jazz that focuses upon key moments in the history of the music in order to unpack the cultural forces that have shaped its development. The broad historical scope of this study, which traces the dynamic interplay of Caribbean and Latin American musical influence in 18th and 19th century colonial New Orleans through to the present global stage, provides an in depth contextual foundation for exploring how musicians work with and negotiate through the politics of nation, place, race, and ethnicity in the ethnographic present. As the book title suggests, Latin jazz is explored both as a specific sub-genre of jazz, and, through the processes involved in its constructed "otherness." Latin Jazz: the Other Jazz provides a revisionist perspective on jazz history by embracing and celebrating jazz' rich global nature and heralding the significant and undeniable Caribbean and Latin American contributions to this beautiful expressive form. This study demonstrates how jazz expression reverberates entangled histories that encompass a tapestry of racial distinctions and blurred lines between geographical divides. Jazz is a product of the black, brown, tan, mulatto, beige, and white experience throughout the Americas and the Caribbean. This book acknowledges, pays tribute to, and celebrates the diversity of culture, experience, and perspectives that are foundational to jazz. By doing so, the music's legacy is shown to transcend way beyond stylistic distinction, national borders, and the imposition of the black and white racial divide that has only served to maintain the status quo and silence and erase the foundational contributions of innovators from the Caribbean and Latin America"--

Resonances

A groundbreaking collection of essays, proposing new frameworks for the discussion of noise - from postpunk to showgaze and beyond.

Historical Dictionary of Jazz

Jazz is a music born in the United States and formed by a combination of influences. In its infancy, jazz was a melting pot of military brass bands, work songs and field hollers of the United States slaves during the 19th century, European harmonies and forms, and the rhythms of Africa and the Caribbean. Later, the blues and the influence of Spanish and French Creoles with European classical training nudged jazz further along in its development. As it moved through the swing era of the 1930s, bebop of the 1940s, and cool jazz of the 1950s, jazz continued to serve as a reflection of societal changes. During the turbulent 1960s, freedom and unrest were expressed through Free Jazz and the Avant Garde. Popular and world music have been incorporated and continue to expand the impact and reach of jazz. Today, jazz is truly an international art form. This second edition of Historical Dictionary of Jazz contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 1,500 cross-referenced entries on musicians, styles of jazz, instruments, recording labels, bands and bandleaders, and more. This book is an excellent resource for students, researchers, and anyone wanting to know more about Jazz.

Social Networks and Music Worlds

Social networks are critical for the creation and consumption of music. This edited collection, *Social Networks and Music Worlds*, introduces students and scholars of music in society to the core concepts and tools of social network analysis. The collection showcases the use of these tools by sociologists, historians and musicologists, examining a variety of distinct 'music worlds', including post-punk, jazz, rap, folk, classical music, Ladyfest and the world of 'open mic' performances, on a number of different scales (local, national and international). In addition to their overarching Introduction, the editors offer a very clear and detailed introduction to the methodology of social network analysis for the uninitiated. The collection builds upon insights from canonic texts in the sociology of music, with the crucial innovation of examining musical network interaction via formal methods. With network analysis in the arts and humanities at an emergent stage, *Social Networks and Music Worlds* highlights its possibilities for non-scientists. Contributions hail from leading and emerging scholars who present social network graphs and data to represent different music worlds, locating individuals, resources and styles within them. The collection sits at the nexus of sociological, musicological and cultural studies traditions. Its range should ensure a large scholarly readership.

Urban Popular Culture and Entertainment

This book is part of an ongoing transnational turn in cultural history. Studies on the history of urban popular culture and the entertainment industries increasingly engage with the European or global circulation of genres, actors, and shows, especially during the period of massive growth and expansion of the sector from the 1870s to the 1930s. Nevertheless, a large part of this research remains focused on exchanges between Western and Central European, and North American metropolises. To provide a fuller picture of the emergence and cross-border transfer of different genres of popular culture, this volume investigates Northern, East Central, and Southern European cities and their relations with each other and the West. The authors analyze the mediating agents, transnational networks, and local responses to new forms of entertainment from Madrid to Vyborg, and from Istanbul to Reykjavík. These examples re-focus the history of urban popular culture in Europe in view of multidirectional transfers and a wider range of regional experiences. *Urban Popular Culture and Entertainment* will appeal to researchers and students alike interested in the history of popular culture in modern societies, particularly those studying urban centers in Europe, and their transnational and transregional connections.

The Beatles and Sixties Britain

In this rigorous study, Marcus Collins reconceives the Beatles' social, cultural and political impact on sixties

Britain.

Christmas, Ideology and Popular Culture

How do we understand Christmas? What does it mean? This book is a lively introduction to the study of popular culture through one central case study. It explores the cultural, social and historical contexts of Christmas in the UK, USA and Australia, covering such topics as fiction, film, television, art, newspapers and magazines, war, popular music and carols. Chapters explore the ways in which the production of meaning is mediated by the social and cultural activities surrounding Christmas (watching Christmas films, television, listening or engaging with popular music and carols), its relationship to a set of basic values (the idealised construct of the family), social relationships (community), and the ways in which ideological discourses are used and mobilised, not least in times of conflict, terrorism and war.

Understanding Community Media

With original contributions from an international team of well-known experts, media activists, and promising young scholars, this comprehensive volume examines community media from theoretical, empirical, historical, and practitioner perspectives. Organized thematically, this collection explores the intersection between community media and issues of democratic theory and the public sphere, cultural politics and social movement theory, neoliberal communication policy and media reform efforts, as well as media activism and international solidarity building. Foregrounding the relationship between symbolic and material relations of power in an increasingly interdependent world, this collection examines the role of alternative, independent, and community-based media in the global struggle for communicative democracy. Understanding Community Media explores a wide range of media forms and practice. Each essay considers the particular and distinctive ways local populations make use of various technologies for purposes of community communication. Taken together, this distinctive collection provides an incisive and timely analysis of the relationship between media and society, technology and culture, and communication and community. * Features more than 35 original, cutting-edge essays * Provides a comprehensive overview of community media around the world including essays on women's video collectives in India, indigenous radio in Colombia, street newspapers in Canada, and independent media in Nigeria. * Makes a timely and important contribution to a burgeoning sub-field of media and cultural studies.

The Routledge Companion to Global Popular Culture

Research on popular culture is a dynamic, fast-growing domain. In scholarly terms, it cuts across many areas, including communication studies, sociology, history, American studies, anthropology, literature, journalism, folklore, economics, and media and cultural studies. The Routledge Companion to Global Popular Culture provides an authoritative, up-to-date, intellectually broad, internationally-aware, and conceptually agile guide to the most important aspects of popular culture scholarship. Specifically, this Companion includes: interdisciplinary models and approaches for analyzing popular culture; wide-ranging case studies; discussions of economic and policy underpinnings; analysis of textual manifestations of popular culture; examinations of political, social, and cultural dynamics; and discussions of emerging issues such as ecological sustainability and labor. Featuring scholarly voices from across six continents, The Routledge Companion to Global Popular Culture presents a nuanced and wide-ranging survey of popular culture research.

Black Popular Music in Britain Since 1945

Black Popular Music in Britain Since 1945 provides the first broad scholarly discussion of this music since 1990. The book critically examines key moments in the history of black British popular music from 1940s jazz to 1970s soul and reggae, 1990s Jungle and the sounds of Dubstep and Grime that have echoed through the 2000s. While the book offers a history it also discusses the ways black musics in Britain have intersected

with the politics of race and class, multiculturalism, gender and sexuality, and debates about media and technology. Contributors examine the impact of the local, the ways that black music in Birmingham, Bristol, Liverpool, Manchester and London evolved differently and how black popular music in Britain has always developed in complex interaction with the dominant British popular music tradition. This tradition has its own histories located in folk music, music hall and a constant engagement, since the nineteenth century, with American popular music, itself a dynamic mixing of African-American, Latin American and other musics. The ideas that run through various chapters form connecting narratives that challenge dominant understandings of black popular music in Britain and will be essential reading for those interested in Popular Music Studies, Black British Studies and Cultural Studies.

When Music Migrates

When Music Migrates uses rich material to examine the ways that music has crossed racial faultlines that have developed in the post-Second World War era as a consequence of the movement of previously colonized peoples to the countries that colonized them. This development, which can be thought of in terms of diaspora, can also be thought of as postmodern in that it reverses the modern flow which took colonizers, and sometimes settlers, from European countries to other places in the world. Stratton explores the concept of 'song careers', referring to how a song is picked up and then transformed by being revisited by different artists and in different cultural contexts. The idea of the song career extends the descriptive term 'cover' in order to examine the transformations a song undergoes from artist to artist and cultural context to cultural context. Stratton focuses on the British faultline between the post-war African-Caribbean settlers and the white Britons. Central to the book is the question of identity. For example, how African-Caribbean people have constructed their identity in Britain can be considered through an examination of when 'Police on My Back' was written and how it has been revisited by Lethal Bizzle in its most recent iteration. At the same time, this song, written by the Guyanese migrant Eddy Grant for his mixed-race group The Equals, crossed the racial faultline when it was picked up by the punk-rock group, The Clash. Conversely, 'Johnny Reggae', originally a pop-ska track written about a skinhead by Jonathan King and performed by a group of studio artists whom King named The Piglets, was revisited by a Jamaican studio group called The Roosevelt Singers. After this, the character of Johnny Reggae takes on a life of his own and appears in tracks by Jamaican toasters as a Rastafarian. Johnny's identity is, then, totally transformed. It is this migration of music that will appeal not only to those studying popular music, but

Exploring Downton Abbey

The BBC television series Downton Abbey (2010-2016), highly rated in the UK, achieved cult status among American viewers, harking back to the days when serial dramas ruled the airwaves. The show's finale was one of the most watched in all of television history. This collection of new essays by British and American contributors explores how a series about life in an early 20th century English manor home resonated with American audiences. Topics include the role of the house in literature and film, the changing roles of women and the servant class, the influence of jazz and fashion, and attitudes regarding education and the class system.

Reshaping Youth Participation

Reshaping Youth Participation reframes discussions around youth political, social, civic, and cultural participation. Drawing upon insights on democracy and citizenship, self-organising and protest movements, and arts activism as engaged social activism, chapters consider the spaces in which young people find voice and action.

Punk, Fanzines and DIY Cultures in a Global World

Since the 1970 and 1980s, fanzines have constituted a zone of freedom of thought, of do-it-yourself creativity

and of alternatives to conventional media. Along with bands, records and concerts, they became a vital part of the construction of punk 'scenes', actively contributing to the creation and consolidation of communities. This book moves beyond the usual focus on Anglophone punk scenes to consider fanzines in international contexts. The introduction offers a theoretical, chronological and thematic survey for understanding fanzines, considering their contemporary polyhedral vitality. It then moves to consider the distinct social, historical and geographic contexts in which fanzines were created. Covering the UK, Portugal, Greece, Canada, Germany, Argentina, France and Brazil, as well as a wide range of standpoints, this book contributes to a more global understanding of the fanzine phenomenon.

Youth and Permissive Social Change in British Music Papers, 1967–1983

This book is a work of press history that considers how the music press represented permissive social change for their youthful readership. Read by millions every week, the music press provided young people across the country with a guide to the sounds, personalities and controversies that shaped British popular music and, more broadly, British culture and society. By analysing music papers and oral history interviews with journalists and editors, Patrick Glen examines how papers represented a lucrative entertainment industry and mass press that had to negotiate tensions between alternative sentiments and commercial prerogatives. This book demonstrates, as a consequence, how music papers constructed political positions, public identities and social mores within the context of the market. As a result, descriptions and experiences of social change and youth were contingent on the understandings of class, gender, sexuality, race and locality.

Black London

This vibrant history of London in the twentieth century reveals the city as a key site in the development of black internationalism and anticolonialism. Marc Matera shows the significant contributions of people of African descent to London's rich social and cultural history, masterfully weaving together the stories of many famous historical figures and presenting their quests for personal, professional, and political recognition against the backdrop of a declining British Empire. A groundbreaking work of intellectual history, *Black London* will appeal to scholars and students in a variety of areas, including postcolonial history, the history of the African diaspora, urban studies, cultural studies, British studies, world history, black studies, and feminist studies.

Transcultural Jazz

Transcultural Jazz: Israeli Musicians and Multi-Local Music Making studies jazz performance and composition through the examination of the transcultural practices of Israeli jazz musicians and their impact globally. An impressive number of Israeli jazz performers have received widespread exposure and worldwide acclaim, creating music that melds aspects of American jazz with an array of Israeli, Jewish and Middle Eastern influences and other non-Western musical traditions. While each musician is developing their own approach to musical transculturation, common threads connect them all. Unraveling and analyzing these entangled sounds and related discourses lies at the center of this study. This book provides broad insight into the nature, role and politics of transcultural music making in contemporary jazz practice. Focusing on a particular group of Israeli musicians to enhance knowledge of modern Israeli society, culture, discourses and practices, the research and analyses presented in this book are based on extensive fieldwork in multiple sites in the United States and Israel, and interviews with musicians, educators, journalists, producers and scholars. *Transcultural Jazz* is an engaging read for students and scholars from diverse fields such as: jazz studies, ethnomusicology, Jewish studies, Israel studies and transnational studies.

Edinburgh Festivals

This book explores the 'culture wars' of 1945-1970 and is the first major study of the origins and development of this leading annual arts extravaganza.

Culture

For more than three decades, a punk underground has repeatedly insisted that 'anyone can do it'. This underground punk movement has evolved via several micro-traditions, each offering distinct and novel presentations of what punk is, isn't, or should be. Underlying all these punk micro-traditions is a politics of empowerment that claims to be anarchistic in character, in the sense that it is contingent upon a spontaneous will to liberty (anyone can do it - in theory). How valid, though, is punk's faith in anarchistic empowerment? Exploring theories from Derrida and Marx, *Anyone Can Do It: Empowerment, Tradition and the Punk Underground* examines the cultural history and politics of punk. In its political resistance, punk bears an ideological relationship to the folk movement, but punk's faith in novelty and spontaneous liberty distinguish it from folk: where punk's traditions, from the 1970s onwards, have tended to search for an anarchistic 'new-sense', folk singers have more often been socialist/Marxist traditionalists, especially during the 1950s and 60s. Detailed case studies show the continuities and differences between four micro-traditions of punk: anarcho-punk, cutie/'C86', riot grrrl and math rock, thus surveying UK and US punk-related scenes of the 1980s, 1990s and beyond.

Anyone Can Do It: Empowerment, Tradition and the Punk Underground

Though more than a generation has passed since the revolutionary fervor of the Summer of Love of 1967, the 1960s in many ways seem with us still. From recurring debates over the war in Vietnam to the perpetually appealing music of the Beatles and the Rolling Stone to the concern about youth drug use, the legacy of the 1960s is ubiquitous in contemporary life. The Summer of Love brings together an impressive group of historians, artists, and cultural critics to present a rich and varied interpretation of this seminal decade and its continuing influence on politics, society, and culture. The Summer of Love, which accompanies an exhibition at Tate Liverpool, pays particular attention to the wildly creative psychedelic art of the era. Perceptive essays on psychedelic comics, graphic design and typography, light shows, and film successfully rescue psychedelic art from the fog of nostalgia and unjust critical neglect. Distinguished contributors also explore the role of 1960s fashion and architecture, and they consider anew the central influence of hallucinogenic drugs on the art of the era. Running throughout the essays are the elements of epochal change—from sexual liberation to student revolutions—that still form the backdrop of our collective consciousness of the 1960s. An incisive collection of writings on all aspects of 1960s art and culture, tempered by time and critical distance, *The Summer of Love* will be indispensable for those who wish they had been there—or for those who were, but can't remember it.

Summer of Love

“The world today is such a wicked place,” Black Sabbath declared in 1969, when they recorded their debut album, set against a backdrop of war, assassinations, social unrest, and disillusionment. Cries for justice from the Civil Rights Movement, and for peace and love from the culture of “flower power,” had been met with violent backlash from the ruling class. It was on this stage that Black Sabbath entered—the heaviest rock band the world had yet known. This band was shaped by a working class upbringing in Birmingham, England, where actual metal defined the small town existence of factories, bombed-out buildings, and little else. With their music, Sabbath captured the dread and the burgeoning pessimism that was haunting the minds of young people in the sixties and seventies. Today, we are in a similar age of crisis: climate disaster, extreme inequality, police brutality, mass incarceration, and now, pandemic. Black Sabbath speaks to our time in ways few other bands can. They deploy apocalyptic imagery to capture the destruction of the planet by despotic superpowers, and they pronounce a prophetic indictment on agents of injustice. In this book, theologian and cultural critic Jack Holloway explores Black Sabbath’s music and lyrics, and what they had to say to their historical context. From this analysis, Holloway outlines a Black Sabbath theology which carries significant import for modern life, reminding us of our deep responsibility to transform a broken world.

Hands of Doom

Increasingly, academic communities transcend national boundaries. “Collaboration between researchers across space is clearly increasing, as well as being increasingly sought after,” noted the online magazine Inside Higher Ed in a recent article about research in the social sciences and humanities. Even for those scholars who don’t work directly with international colleagues, staying up-to-date and relevant requires keeping up with international currents of thought in one’s field. But when one’s colleagues span the globe, it’s not always easy to keep track of who’s who—or what kind of research they’re conducting. That’s where Intellect’s new series comes in. A set of worldwide guides to leading academics—and their work—across the arts and humanities, Who’s Who in Research features comprehensive profiles of scholars in the areas of cultural studies, film studies, media studies, performing arts, and visual arts. Who’s Who in Research: Performing Arts includes concise yet detailed listings include each academic’s name, institution, biography, and current research interests, as well as bibliographic information and a list of articles published in Intellect journals. The volumes in the Who’s Who in Research series will be updated each year, providing the most current information on the foremost thinkers in academia and making them an invaluable resource for scholars, hiring committees, academic libraries, and would-be collaborators across the arts and humanities.

Who's Who in Research: Performing Arts

Opera in the Jazz Age: Cultural Politics in 1920s Britain explores the interaction between opera and popular culture at a moment when there was a growing imperative to categorize art forms as “highbrow,” “middlebrow,” or “lowbrow.” In this provocative and timely study, Alexandra Wilson considers how the opera debate of the 1920s continues to shape the ways in which we discuss the art form, and draws connections between the battle of the brows and present-day discussions about elitism.
